THE STORY

Serafica Wines is a family-owned estate on the southern slopes of Mount Etna, where volcanic soils and dramatic elevations shape expressive, mineral-driven wines. Farming organically across high-altitude vineyards, the Serafica family blends tradition with innovation, crafting wines that reflect Etna's unique terroir. With a focus on native grape varieties like Carricante and Nerello Cappuccio, and a deep commitment to sustainability, Serafica produces elegant, site-driven wines—from vibrant sparklings to limited-edition releases like the Versante Sud line. Each bottle tells the story of Etna, brought to life through generations of care and connection to the land.
